

PRATHAM VERMA

Front End / Full Stack Developer (MERN) — React.js | Node.js | Responsive Web Development

Alwar, Rajasthan | +91-9636586801 | prathamverma8880@gmail.com | [linkedin.com/in/prathamverma777](https://www.linkedin.com/in/prathamverma777) | github.com/Pratham-V-Coder

PROFESSIONAL SUMMARY

Front End / Full Stack Developer with hands-on experience building responsive, component-based web applications using React.js and modern JavaScript (ES6+). Skilled in translating wireframes and design requirements into scalable, cross-device UI using HTML5, CSS3, and Tailwind CSS/Bootstrap. Experienced across the full SDLC, including REST API design, Node.js/Express.js backend development, AJAX-based web service integration, NoSQL (MongoDB) and relational (MySQL) database design, JWT authentication, Git version control, and debugging/performance optimization. Comfortable working with design thinking principles, scaffolding web applications, and staying current with emerging front-end technologies.

TECHNICAL SKILLS

Front End: React.js, JavaScript (ES6+), OOJS, HTML5, CSS3, Responsive Web Development, Redux, Component-Based Architecture, Tailwind CSS, Bootstrap, SPA (Single Page Applications)

Back End: Node.js, Express.js, RESTful API Design, AJAX, JWT Authentication, bcrypt, MVC Architecture, RBAC, Session Management

Databases: MongoDB (NoSQL), MySQL (Relational), Mongoose, Database Design

Tools & Platforms: Git, GitHub, Postman, VS Code, Cloudinary, Razorpay, npm, Node Ecosystem, AWS, Azure

Practices: Agile/SDLC, Design Thinking, API Design, Code Quality & Debugging, Cross-Browser Compatibility

Currently Expanding: SASS/LESS, Angular Fundamentals, Jest (Unit Testing) — self-paced learning in progress

PROFESSIONAL EXPERIENCE

MERN Stack Developer | Kvon Tech Consultancy Services Pvt. Ltd. | Jaipur

Jan 2026 – Present

- Translated UI requirements and design specifications into responsive, component-based front-end interfaces using React.js and Tailwind CSS, ensuring seamless performance across devices.
- Architected and deployed full-stack MERN applications with scalable RESTful APIs, JWT authentication, and MongoDB (NoSQL) database design, supporting end-to-end product delivery.
- Built a production e-commerce platform with Razorpay payment integration, seller dashboard, and AJAX-driven inventory management.
- Implemented JWT-based authentication and role-based authorization with protected API routes, securing multi-user application access (RBAC).
- Conducted debugging, code quality reviews, and performance optimization to enhance application stability and reliability.

Intern Web Developer | Appcosoftware Company | Jaipur

May 2023 – Aug 2023

- Developed full-stack PHP web applications with responsive HTML/CSS/JS front ends; managed product listings and customer review data using MySQL.
- Integrated front-end and back-end systems to streamline data processing and improve portal stability via systematic bug resolution.

Intern Python Developer | CodSoft | Remote

Oct 2023 – Nov 2023

- Delivered Python development tasks independently in a remote environment, consistently meeting milestones while maintaining strong code quality standards.

PROJECTS

GreenCart – Grocery E-Commerce Platform | React.js, Node.js, Express.js, MongoDB, Razorpay, JWT, Tailwind CSS

- Built a full-stack, responsive grocery e-commerce platform with Razorpay payment integration, JWT authentication, seller dashboard, inventory management, and scalable REST APIs.

Ticket Raise System – CRM Application | MERN Stack, RBAC, JWT, bcrypt, Tailwind CSS

- Developed a CRM with Role-Based Access Control, ticket lifecycle management (open/in-progress/closed), bcrypt password hashing, and role-protected API routes.

Job Portal Application | MERN Stack, Redux, JWT, Cloudinary, REST APIs

- Built a responsive job portal with Redux state management, JWT-protected routes, and Cloudinary integration for employer media/asset management.

EDUCATION

MCA – Data Analysis & Data Science | JECRC University, Jaipur

2024 – 2026 (Pursuing)

BCA – Computer Applications | The ICFAI University, Jaipur

2021 – 2024

CERTIFICATIONS

Web Technology • C++ Programming • Database Management (MySQL) • Python Programming — Infosys Springboard

KEY ACHIEVEMENTS

- Built 5+ full-stack apps and designed 20+ RESTful APIs with JWT-based authentication and authorization.
- Developed secure, role-based systems with payment processing, cloud storage, and database-driven features.
